## Support for the Optional Network Interface Board

### Overview

- The SKS-C1 now supports the optional **Network Interface Board**.
  - To achieve this, the GDI board and other service parts were modified (see below).
  - The SKS-C1 that supports the optional board is the **D134**, which is scheduled for launch in China on April 27, 2011.
- Note:** The **D108** does not support the network interface board.
- The installation procedure for the network interface board is shown below.

Area	Brand	Name	Product Code	EDP Code	Serial #
China	Ricoh	Ricoh Aficio MP 175L	D134-21	415910	W45Ymm00001~
China	Gestetner	Gestetner DSm517L	D134-25	415911	W45Ymm00001~

### Service parts

The GDI controller board and the shape of the interface cover were modified for use on the new D134.
