

Notes for Users

Support for Mac OS X v10.7

(1) About the dedicated printer driver

- The dedicated printer driver for Mac OS X v10.7 is not supplied with this product.
- Download it from the dealer's printer driver download page.
(For details about when it will be available, contact your local sales office.)

(2) About Fiery Express Driver specified in the user documentation

1. Restrictions

- Not all features are available in Fiery Express Driver.
(For details about the features you can use, refer to the download page.)
- We recommend that you use the dedicated printer driver if you want to use all features.

2. Contact information for Fiery Express Driver
