Safety Precautions to Be Followed

This section explains safety precautions that should always be followed when using this machine.

Environments where the machine can be used

This section explains safety precautions about environments where the machine can be used.

⚠️ **WARNING**

- Do not use flammable sprays or solvents in the vicinity of this machine. Doing so could result in fire or electric shock.

⚠️ **WARNING**

- Do not place vases, plant pots, cups, toiletries, medicines, small metal objects, or containers holding water or any other liquids, on or close to this machine. Fire or electric shock could result from spillage or if such objects or substances fall inside this machine.

⚠️ **CAUTION**

- Keep the machine away from humidity and dust. Otherwise a fire or an electric shock might occur.

⚠️ **CAUTION**

- Do not place the machine on an unstable or tilted surface. If it topples over, an injury might occur.

⚠️ **CAUTION**

- Do not place heavy objects on the machine. Doing so can cause the machine to topple over, possibly resulting in injury.

⚠️ **CAUTION**

- Make sure the room where you are using the machine is well ventilated and spacious. Good ventilation is especially important when the machine is used heavily.

⚠️ **CAUTION**

- Keep the machine away from salt-bearing air and corrosive gases. Also, do not install the machine in places where chemical reactions are likely (laboratories, etc.), as doing so will cause the machine to malfunction.

⚠CAUTION

> • Do not obstruct the machine's vents. Doing so risks fire caused by overheated internal components.

Handling power cords and power cord plugs

This section explains safety precautions about handling power cords and power cord plugs.

⚠WARNING

> • Do not use any power sources other than those that match the specifications shown. Doing so could result in fire or electric shock.

⚠WARNING

> • Do not use any frequencies other than those that match the specifications shown. Doing so could result in fire or electric shock.

⚠WARNING

> • Do not use multi-socket adaptors. Doing so could result in fire or electric shock.

⚠WARNING

> • Do not use extension cords. Doing so could result in fire or electric shock.

⚠WARNING

> • Do not use power cords that are damaged, broken, or modified. Also, do not use power cords that have been trapped under heavy objects, pulled hard, or bent severely. Doing so could result in fire or electric shock.

⚠WARNING

> • Touching the prongs of the power cable's plug with anything metallic constitutes a fire and electric shock hazard.

⚠WARNING

> • The supplied power cord is for use with this machine only. Do not use it with other appliances. Doing so could result in fire or electric shock.

⚠ WARNING

- It is dangerous to handle the power cord plug with wet hands. Doing so could result in electric shock.

⚠ WARNING

- If the power cord is damaged and its inner wires are exposed or broken, contact your service representative for a replacement. Use of damaged power cords could result in fire or electric shock.

⚠ WARNING

- Be sure to disconnect the plug from the wall outlet at least once a year.
    - There are burn marks on the plug.
    - The prongs on the plug are deformed.
- If any of the above conditions exist, do not use the plug and consult your dealer or service representative. Use of the plug could result in fire or electric shock.

⚠ WARNING

- Be sure to disconnect the power cord from the wall outlet at least once a year.
    - The power cord's inner wires are exposed, broken, etc.
    - The power cord's coating has a crack or dent.
    - When bending the power cord, the power turns off and on.
    - Part of the power cord becomes hot.
    - The power cord is damaged.
- If any of the above conditions exist, do not use the power cord and consult your dealer or service representative. Use of the power cord could result in fire or electric shock.

⚠ CAUTION

- Be sure to push the plug of the power cord fully into the wall outlet. Partially inserted plugs create an unstable connection that can result in unsafe buildup of heat.

⚠ CAUTION

- If this machine is not going to be used for several days or longer at a time, disconnect its power cord from the wall outlet.

⚠️ CAUTION

- When disconnecting the power cord from the wall outlet, always pull the plug, not the cord. Pulling the cord can damage the power cord. Use of damaged power cords could result in fire or electric shock.

⚠️ CAUTION

- Be sure to disconnect the plug from the wall outlet and clean the prongs and the area around the prongs at least once a year. Allowing dust to build up on the plug constitutes a fire hazard.

⚠️ CAUTION

- When performing maintenance on the machine, always disconnect the power cord from the wall outlet.

Handling the main machine

This section explains safety precautions about handling the main machine.

⚠️ WARNING

- Be sure to locate the machine as close as possible to a wall outlet. This will allow easy disconnection of the power cord in the event of an emergency.

⚠️ WARNING

- If the machine emits smoke or odours, or if it behaves unusually, you must turn off its power immediately. After turning off the power, be sure to disconnect the power cord plug from the wall outlet. Then contact your service representative and report the problem. Do not use the machine. Doing so could result in fire or electric shock.

⚠️ WARNING

- If metal objects, or water or other fluids fall inside this machine, you must turn off its power immediately. After turning off the power, be sure to disconnect the power cord plug from the wall outlet. Then contact your service representative and report the problem. Do not use the machine. Doing so could result in fire or electric shock.

⚠️ WARNING

- The following explains the warning messages on the plastic bag used in this product's packaging.
  - Keep the polythene materials (bags, etc.) supplied with this machine away from babies and small children at all times. Suffocation can result if polythene materials are brought into contact with the mouth or nose.

⚠️ CAUTION

- Unplug the power cord from the wall outlet before you move the machine. While moving the machine, take care that the power cord is not damaged under the machine. Failing to take these precautions could result in fire or electric shock.

⚠️ CAUTION

- After you move the machine, use the caster fixture to fix it in place. Otherwise the machine might move or come down to cause an injury.

⚠️ CAUTION

- Contact your service representative if you need to lift the machine (such as when relocating it to another floor). Do not attempt to lift the machine without the assistance of your service representative. The machine will be damaged if it topples or is dropped, resulting in malfunction and risk of injury to users.

⚠️ CAUTION

Contact your sales or service representative if any of the machine's internal components require maintenance, adjustment, or repair.

- Do not attempt to disassemble or modify this machine. Doing so risks burns and electric shock.

⚠CAUTION

- When removing jammed paper, make sure not to trap or injure your fingers.

⚠CAUTION

- When loading paper, take care not to trap or injure your fingers.

⚠CAUTION

- Be careful when replacing the paper, clearing paper jams, or cleaning the platen. Follow the instructions for these procedures properly. Not doing so could result in injury from the paper cutter inside.

⚠️ CAUTION

- When replacing paper rolls, do not touch the spool near the gear. Doing so may cause your hands to get dirty. If your hands get dirty, wash the affected area thoroughly with soap and water.

⚠️ CAUTION

- During operation, rollers for transporting the paper and originals revolve. A safety device has been installed so that the machine can be operated safely. But take care not to touch the machine during operation. Otherwise, an injury might occur.

⚠️ CAUTION

- Do not clean parts other than those explicitly specified in this manual. To clean other parts, contact your service representative. Fire and breakdown can result from heavy accumulation of dust. Contact your sales or service representative for details about and charges for cleaning the machine.

⚠️ CAUTION

- Keep ink and ink containers out of reach of children.

⚠️ CAUTION

- If ink gets into contact with eyes, wash eyes immediately with running water. Consult a doctor if necessary.

⚠ CAUTION

- If ink is ingested, induce vomiting by drinking a strong saline solution. Consult a doctor immediately.

⚠ CAUTION

- When removing jammed paper or replacing ink, avoid getting ink on your clothing. If ink comes into contact with your clothing, wash the stained area with cold water. Hot water will set the ink into the fabric and make removing the stain impossible.

⚠ CAUTION

- When removing jammed paper or replacing ink, avoid getting ink on your skin. If ink comes into contact with your skin, wash the affected area thoroughly with soap and water.

⚠ CAUTION

- When removing the print cartridge, avoid putting your hand near the place where the print cartridge is installed. If ink comes in contact with your hands, wash them thoroughly with soap and water.

⚠ CAUTION

- When replacing ink collector unit, avoid getting ink on your clothing. If ink comes into contact with your clothing, wash the stained area with cold water. Hot water will set the ink into the fabric and make removing the stain impossible.

⚠ CAUTION

- Do not attempt to print on stapled sheets, aluminum foil, carbon paper, or any kind of conductive paper. Doing so risks fire.
