Errata for *Operating Instructions*

Page	Error	Correction
p.16 note of “Placing Paper on the Paper Feed Table”	*Incomplete information*	If you set curled paper on the bypass tray, flatten it so that its curl is within the limitations shown in the diagram below. Front and back curl; R60mm (2.4") or more, height 10mm(0.4") or less. p.30 “When J31 or J32 Is Displayed”	*Incomplete information*	Note When opening cover V1, lift with both hands simultaneously. Use both hands when closing cover V1 also, and do not leave the cover raised. If you open only one side of cover V1, you might not be able to close it. If this happens, fully open the cover, and then close it using both hands.
