This exploded view diagram illustrates the assembly of a mechanical component, likely a door latch or handle mechanism. The main assembly is shown on the right, with various sub-components and fasteners labeled with numbers and callouts.

Parts and Callouts:

- 1:** A long, cylindrical pin or shaft.
- 2:** A small, curved bracket or clip.
- 3:** A small, curved bracket or clip.
- 4:** A small, curved bracket or clip.
- 5:** A small, curved bracket or clip.
- 6:** A small, curved bracket or clip.
- 7:** A small, curved bracket or clip.
- 8:** A long, thin metal strip or plate.
- 9:** A small, curved bracket or clip.
- 10:** A small, curved bracket or clip.
- 11:** A small, curved bracket or clip.
- 12:** A small, curved bracket or clip.
- 13:** A small, curved bracket or clip.
- 14:** A small, curved bracket or clip.
- 101:** A small screw or bolt.
- 102:** A small screw or bolt.
- 103:** A small screw or bolt.
- 104:** A small screw or bolt.

The diagram shows the assembly of the main component, which includes a large metal plate with multiple slots and a handle. The handle is attached to the plate using a series of pins and brackets. The assembly is shown in an exploded view, with the main component on the right and the handle assembly on the left. The handle assembly is shown in two different positions, one with the handle pointing up and one with the handle pointing down. The exploded view shows the handle assembly being attached to the main component. The main component is shown with a handle on the left and a latch on the right. The handle is attached to the main component using a series of pins and brackets. The exploded view shows the handle assembly being attached to the main component. The main component is shown with a handle on the left and a latch on the right. The handle is attached to the main component using a series of pins and brackets. The exploded view shows the handle assembly being attached to the main component.
