

Notes for RICOH Streamline NX Manuals

Please note the following additional information and corrections to these manuals.

■ Correction

Administrator's Guide

Original Chapter / Page		Changes	
1. Workflow > Device Management Function Workflow > Monitoring Devices with a Mobile App		Error	The <u>device management application</u> can be downloaded from the app store.
		Correction	The <u>RICOH Streamline NX Device Manager app</u> can be downloaded from the app store.
3. Managing Devices > Viewing the Device List > Device Properties > Main Properties	Operation Panel	Error	<ul style="list-style-type: none"> Operation Panel Displays "Smart" or "Standard" depending on the type of the selected device. <u>If neither is applicable, this item becomes blank.</u>
		Correction	<ul style="list-style-type: none"> Operation Panel Displays "Smart" or "Standard" depending on the type of the selected device. <u>When the information cannot be obtained from the device, this item is left blank.</u>
3. Managing Devices > Managing the Streamline NX Embedded Settings > Configuring the Login Screen of a Device	Step. 1	Error	1. Click the following items in the navigation tree to open the <u>[Login Screen]</u> tab. <div style="border: 1px solid black; padding: 5px; margin: 5px 0;"> [Configuration] ▶ [Streamline NX Embedded Settings] ▶ [Login Screen] </div>
		Correction	1. Click the following items in the navigation tree to open the <u>[Embedded Login Screen]</u> tab. <div style="border: 1px solid black; padding: 5px; margin: 5px 0;"> [Configuration] ▶ [Streamline NX Embedded Settings] ▶ [Embedded Login Screen] </div>
6. Managing Document Delivery Functions > File and Folder Naming Conventions > Other File Naming Conventions	Example	Error	A suffix is added to avoid a duplicate file name, and when 9999 is exceeded, <u>an error occurs.</u>
		Correction	A suffix is added to avoid a duplicate file name, and when 9999 is exceeded, <u>an error occurs and the delivery fails.</u>

Original Chapter / Page		Changes					
6. Managing Document Delivery Functions > Configuring the Properties of a Process Connector > PDF Stamper	Supported formats (input data)	Error	<p>Supported formats (input data)</p> <p>The following file formats are supported as input data in the PDF Stamper connector:</p> <ul style="list-style-type: none"> • <u>TIFF (uncompressed)</u> • BMP • PDF 				
		Correction	<p>Supported formats (input data)</p> <p>The following file formats are supported as input data in the PDF Stamper connector:</p> <ul style="list-style-type: none"> • <u>TIFF</u> • BMP • PDF <p><u>However, the following data is not supported:</u></p> <ul style="list-style-type: none"> • <u>BMP version 5</u> • <u>Encrypted PDF document</u> • <u>A TIFF image that matches any of the following conditions:</u> <ul style="list-style-type: none"> • <u>TIFF image with compression and multiple strips</u> • <u>TIFF image with tiles</u> • <u>TIFF image with more than 8 Bits per sample</u> • <u>TIFF 5.0-style LZW codes</u> • <u>TIFF image with extra samples</u> • <u>TIFF image with photometric 6</u> 				
10. List of Setting Items > Configuration > Streamline NX Embedded Settings > Embedded Login Screen		Error	Click [<u>Login Screen</u>] in the navigation tree to display the list of screen names.				
		Correction	Click [<u>Embedded Login Screen</u>] in the navigation tree to display the list of screen names.				
10. List of Setting Items > Workflow > Workflow Design	[General] tab	Error	<table border="1"> <thead> <tr> <th>Item</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td><u>Screen Title</u></td> <td>Select a language, and enter the title text to be displayed on the operation screen of the device.</td> </tr> </tbody> </table>	Item	Description	<u>Screen Title</u>	Select a language, and enter the title text to be displayed on the operation screen of the device.
		Item	Description				
<u>Screen Title</u>	Select a language, and enter the title text to be displayed on the operation screen of the device.						
Correction	<table border="1"> <thead> <tr> <th>Item</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td><u>Display Name</u></td> <td>Select a language, and enter the title text to be displayed on the operation screen of the device.</td> </tr> </tbody> </table>	Item	Description	<u>Display Name</u>	Select a language, and enter the title text to be displayed on the operation screen of the device.		
Item	Description						
<u>Display Name</u>	Select a language, and enter the title text to be displayed on the operation screen of the device.						
10. List of Setting Items > Workflow > Embedded Applications	[General] tab	Error	<table border="1"> <thead> <tr> <th>Item</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td><u>Screen Title</u></td> <td>Enter the title text to be displayed on the operation screen of the device. The name of the application is displayed when [<u>Screen Title</u>] is not specified.</td> </tr> </tbody> </table>	Item	Description	<u>Screen Title</u>	Enter the title text to be displayed on the operation screen of the device. The name of the application is displayed when [<u>Screen Title</u>] is not specified.
		Item	Description				
<u>Screen Title</u>	Enter the title text to be displayed on the operation screen of the device. The name of the application is displayed when [<u>Screen Title</u>] is not specified.						
Correction	<table border="1"> <thead> <tr> <th>Item</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td><u>Display Name</u></td> <td>Enter the title text to be displayed on the operation screen of the device. The name of the application is displayed when [<u>Display Name</u>] is not specified.</td> </tr> </tbody> </table>	Item	Description	<u>Display Name</u>	Enter the title text to be displayed on the operation screen of the device. The name of the application is displayed when [<u>Display Name</u>] is not specified.		
Item	Description						
<u>Display Name</u>	Enter the title text to be displayed on the operation screen of the device. The name of the application is displayed when [<u>Display Name</u>] is not specified.
