### Modification Bulletin

**PAGE: 1/1** 

Reissued: 31-Mar-99

Model: Schmidt 1 (FAX2000L)	Date: 15-Mar-99	No.: 2a
-----------------------------	-----------------	---------

#### **MB** Correction

The items in bold italics have been corrected or added.

Modified Article: Drive Section (Paper Exit Roller Gear)			Prepared by: Y.Okunishi		
From: GTSS Field Information Dept.					
Reason for Modification:	<ul><li>☐ Parts catalog correction</li><li>☐ To facilitate assembly</li><li>☐ Part standardization</li></ul>	☐ Vendor change ☐ To improve reliability ☐ Other		☐ To meet standards ( )	
Modification Schedule	March 1999				

Old part	New part	Description	Qty	Int	Page	Index	Note
number	number						
H5452133	H5452133A	Gear – Paper Exit Roller	1 - 1	X/X	19	19	*
54472681		Snap Ring	2 - 1		19	20	*
	H5153543	E-Ring - JRE4	0 - 1	X/X	19	20	*

We found that the Paper Exit Roller Gear (Index 19) and the Fusing Drive Gear

(Gear- 46T: Index 18) were out of position during the inspection in the factory. The cause is that the Fusing Drive Gear slipped to the outside.

The problem happened one time in the factory.

We have tried to duplicate the problem in our tests, however we have never seen the problem again. So, we think that it does not happen often in the field.

Just in case, we changed the Paper Exit Roller Gear to a gear with a stopper that prevents the Fusing Drive Gear from slipping out.

#### Note:

The thickness of the Paper Exit Roller Gear was increased and the Snap Ring became thinner as the result of the above change.

When you replace the old Paper Exit Roller Gear with the new one, you need to replace the Snap Ring with the new one (JRE4 E-Ring above) too.

The old Paper Exit Roller Gear has not been supplied as a spare part. So, you can have only the new type gear.

We implemented the following on the machines produced in *January 1999* as a tentative countermeasure before the modification above.

- 1) Added a thin spacer between the Paper Exit Roller Gear and the Snap Ring.
- 2) Exchanged the Snap Ring with the new JRE4 E-Ring.
- \* Applied units: NRG Europe From S/N AS39811141 Others - From January production

Model: Schmidt1	Date: 31-Mar-99	No.: MH545005a
-----------------	-----------------	----------------

#### **MB Correction**

The items in bold italics have been corrected or added.

Modified Article: FCU (Change of ROM)			Prepared by: Y.Okunishi		
From: Technical Ser	vice Dept., GTS Division				
Reason for Modification:	<ul><li>☐ Parts catalog correction</li><li>☐ To facilitate assembly</li><li>☐ Part standardization</li></ul>	□Vendor cha □To improve □Other	ŭ	☑ To meet standards (Ireland)	
Modification Schedule	From the March production r	un.			

Old part	New part	Description	Qty	Int	Page	Index	Note
number	number						
H5456120P	H5456120Q	PCB – FCU-US	1 – 1	X/O	21	13	
H5456135G	H5456135H	PCB – FCU-EU/ASIA	1 - 1	X/O	21	13	
(H5457200G)	(H5457200H)	(Program)		(X/O)			

### Reasons for the change:

- 1) Correction of the following problem
  - When the handset is picked up just after starting to ring, the LCD display does not change from READY. No problem with the conversation.
- 2) To meet regulations for Ireland

Current:

New:

- 3) Per request from Norway (Parameter for auto dialing)
- 4) Power control for the fusing fan is changed.

(Printing)(Ready mode)----->(Energy saver mode) 100%----->15%----->OFF-----> 80% ----->66%---->OFF----->

This reduces noise generated by the fan.

See the RAM address table below.

Address	Current	New
800604h	07(H)	00(H)
800605h	02(H)	00(H)
800606h	05(H)	00(H)
800607h	27(H)	00(H)

### Modification Bulletin

**PAGE: 1/2** 

Model: Schmidt1 D			Date: 30-Apr-99		9	No.: MH545008
Modified Article: FCU (Change of ROM)				Prepared by: Y.Okunishi		
From: Technical Ser	vice Dept., GTS Division					
Reason for	☐ Parts catalog correction	☐Vendor change		☐ To m	neet standards	
Modification:	☐ To facilitate assembly ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐		rove reliability (		( )	)
	☐ Part standardization	tandardization \overline Other				
Modification	From April production run.					
Schedule						

Old part	New part	Description	Qty	Int	Page	Index	Note
number	number						
H5456120Q	H5456120R	PCB – FCU-US	1 – 1	O/O	21	13	
H5456135H	H5456135J	PCB – FCU-EU/ASIA	1 - 1	O/O	21	13	
(H5457200H)	(H5457200J)	(Program)		(X/O)			

### Reasons for the change:

- 1) Correction of the following bugs
  - "SID" was "PWD" on the protocol dump list.
  - The symbol rate for Rx with V.34 was incorrect on the protocol dump list.
- 2) Checking that the auto call is not active will not be done in manual Tx mode (For France)
- 3) A new bit switch is assigned for fusing fan control.

New switch = Printer SW 0F Bit 1

	(Printing)(Ready mode)>(Energy saver mode)
Old setting :	100%>15%>OFF>
Current setting → Bit 1=0:	80%>66%>OFF>
Special setting→ Bit 1=1:	80%>15%>

If the customer is not satisfied with the current noise level generated by the fan, please try the "Special setting" above.

See the RAM address table on the next page.

Modified Article: Separation Pad					by: K.	Moriizumi
From: Technical Services sec. Service Planning Dept.						
Reason for	Parts catalog correction	☐ Vendor change		ange	☐ To n	neet standards
Modification:	☐ To facilitate assembly	☐ To improve reliability		(	)	
	☐ Part standardization	Othe	r			

To ensure that paper jams and misfeeds do not occur at the paper entrance area, the Separation Pad has been changed, and a Separation Unit has been newly registered (consisting of the pad, holder, and spring).

For further details, see RTB #RH545020.

Schmidt 1/2 (only for EU)

Old part	New part	Description	Q'ty	Int	Page	Index	Note
number	number						
H5453155	H5463111	Separation Pad - SS	1-1	0/0	23	3	
	H5463101	Separation Unit - SS			23	23	

### Modification Bulletin

**PAGE: 1/1** 

Reissued: 15-Nov-02

Model: Schmidt Series	Date: 8-Nov-02	No.: MH545026a
