[Create date] 2018/11/19
---------------------------------------------------------------------
[Program Name] BufferPassUnit
---------------------------------------------------------------------
[Version] 02.020:10
---------------------------------------------------------------------
[PCB No.]
---------------------------------------------------------------------
[Interchangeability] X / O
---------------------------------------------------------------------
[Other Firmware Requirements] None
---------------------------------------------------------------------
[PCB Requirements] None
---------------------------------------------------------------------
[Software category] Normal Release
---------------------------------------------------------------------
[Release category] Normal Release
---------------------------------------------------------------------
[Program category] Firmware
---------------------------------------------------------------------
Exported to(language) GEN(all)
[Firmware No.] D5481702C
[File Information]
 File Name        D5481702C.fwu
 File Type        Module for Service
 Size             0.25 MB ( 262848 byte )
[File Information]
 File Name        D5481702C.rfu
 File Type        Module for Remote Upgrade
 Size             0.26 MB ( 270592 byte )
[Availability of RFU] No
---------------------------------------------------------------------
[Production reflection] 2013/03
---------------------------------------------------------------------

```

===
[Modifications made:]
Rank C

Buffer Pass Unit for Pro C51xx series:
- First release

Buffer Pass Unit for Pro C651/751 series:
- Changes made to Buffer Pass Unit Type 5020 (D751) were also
  applied to Buffer Pass Unit Type 5010 (D548) for standardization.

[Modification history]

Version 02.010:09
Symptom Corrected:
Jams when feeding paper longer than 614mm.

Version 02.000:09
1st Mass production
