

Notes for Users of the Multi-Folding Unit FD5000

<Revisions to Precautions Concerning Correcting Paper Curl Using the Decurl Unit DU5000>

Thank you for purchasing this product. The following are revisions to the precautions on use of the Decurl Unit DU5000. Kindly refer to these in place of the earlier precautions.

Section: "Paper Curl Correction Level" in "General Features " in the System Settings in *Network and System Settings Guide*

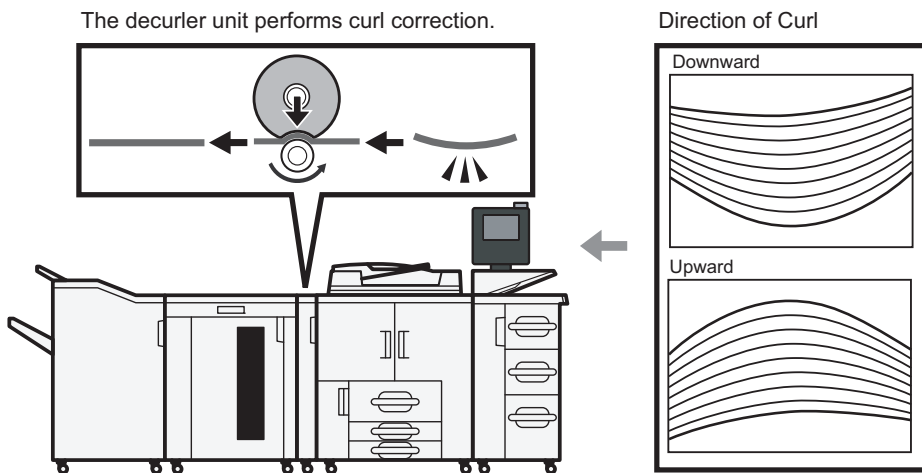

Addendum: Add the following.

Precautions Concerning Curl Correction

When using the decurler to correct paper curl, take care to avoid upward curling.

If decurling results in upward curling, paper jams are likely when finishing processes that involve the fold function are selected.
