-

Page Setup

You can set the paper size on which "Print Fonts Catalogue" and "Prints Fonts Sample" are printed.

- 1** Select **[Page Setup...]** on the **[File]** menu.

- 2** Choose the paper size.

Printing Font Catalog

Print the names of fonts available on the printer.

 **Note**

The paper selected under **[Page Setup]** is used.

1 Select **[Print Fonts Catalogue]** on the **[File]** menu.

2 Click **[Print]**.

Printing Font Sample

You can print samples of fonts that were downloaded on hard disk and the additional memory.

 **Note**

Print by using the paper selected on **[Page Setup]**.

1 Select **[Print Fonts Sample...]** on the **[File]** menu.

2 Click **[Print]**.

Renaming the Printer

You can change the printer's name displayed under Appletalk. If you connect several printers on the network, assign different names so you can identify them. If several printers have the same name, a digit appears next to the printer name in the **[Chooser]**.

1 Select **[Rename Printer...]** on the **[File]** menu.

2 Type a new name in the **[New Name:]** field.

 **Limitation**

You can enter up to 31 digits and letters.

Do not use symbols such as "*", ":", "=", "@", "~".

3 Click **[Rename]**.

The printer name is changed.

4 Press **[OK]**.

5 Select **[Chooser]** on the **Apple** menu.

6 Click the icon of **[LaserWriter 8]**.

7 Click to select the printer name entered in step **2**, and then close **[Chooser]**.

 **Note**

If there are several Appletalk zones, select the zone where the printer belongs.

Restarting the Printer

You can restart the printer. The fonts in printer's memory must be deleted.

1 Select **[Restart Printer]** on the **[File]** menu.

2 Confirm the message that appears on the screen, and then click **[Restart]**.

The printer restarts.

 **Note**

- If the printer restarts, all the printer settings return to their defaults. For how to set each function, see "Printer Reference 2" which is included as a PDF file on the CD-ROM labeled "Operating Instructions for Printer".

Downloading PostScript Files

You can download a PostScript file for printing.

1 Select **[Download PostScript File...]** on the **[Utility]** menu.

2 Select the file name to print, and then click **[Open]**.

3 Type the log file name, and then click **[Save]**.

The selected file is printed.

 **Note**

- Errors are recorded in the log file.

Selecting the Zone

You can change the zone where the printer belongs under Appletalk.

 **Important**

- Confirm that the printer and a Macintosh are connected in an Appletalk environment.

1 Select **[Select Zone...]** on the **[Utility]** menu.

The zone where the printer belongs and the available zones list appear.

2 Select the zone that you want to switch the printer, and then click **[Change]**.

A confirmation message appears.

3 Click **[Continue]**.

A confirmation message appears.

4 Press **[OK]**.

- 5** Select **[Chooser]** on the Apple menu.
- 6** Click the **[LaserWriter 8]** icon.
- 7** Select the zone changed in step **2** on the **[Appletalk zone:]**.
- 8** Click to select the printer you want to use on the **[Select a PostScript Printer:]**.
- 9** Close **[Chooser]**.

Displaying the Printer Status

You can display and confirm the current status of the printer.

- 1** Select **[Display Printer Status...]** on the **[Utility]** menu.

The current status of the printer appears.

- 2** Confirm the current status of the printer.

You can confirm the memory capacity, the VM space, the hard disk drive status and available space on the hard disk drive. You can also confirm the zone the printer belongs to.

- 3** Click **[OK]**.

Launching the Dialogue Console

You can create and edit PostScript file for printing, and download it to the printer.

Important

- “Launch Dialogue Console” is recommended for user with a grasp of PostScript.
- Do not download any files other than PostScript files to the printer.
- “Launch Dialogue Console” must be used at your own responsibility.

- 1** Select **[Launch Dialogue Console...]** on the **[Utility]** menu.

The editing screen and Dialogue Console menu bar are displayed.

- 2** Type the PostScript command in the editor screen.

Note

- To edit a PostScript file, select **[Open]** on the **[File]** menu.
- You can search or replace a character string by using the **[Search]** menu.

- 3** After editing the PostScript file, select **[Download Top Window]** on the **[Console]** menu to start printing.

The PostScript file is sent to the printer.

 **Note**

- The “Reply from Printer” message appears depending on the PostScript file you sent.

- 4** Select **[Return To Downloader]** on the **[Console]** menu to close the PostScript file.
