Old P/N	New P/N	Description	Q'ty	Int*	Page	Index	Note
AX040215	AX040244	Stepper Motor:DC:13.2W	1-1	O/X	5	4	
G5551311	G3991311	Heat Sink	1-1	X/O	7	20	

Change:

- 1) The size of the stepper motor was increased.
- 2) The shape of the heat sink was changed.

Reason:

- 1) Vendor change (the supplier no longer provides the old motor).
- 2) To ensure that the heat sink does not contact the motor.

Important: If you need to install one of the new parts, make sure to **install them both together**. This is because the interchangeability of the motor and heat sink is **X/O as a set**.
