The CiG4 board has been modified to conform to the new standard which will go into effect in Europe in April 2001.

Therefore, from April 1, please make sure to:

1. Use only the new board (A8955195).
2. Install the following firmware versions (or newer) when installing the new board:
 - For European 1st language: A2685584J
 - For European 2nd language: A2685585E
 - For European 3rd language: A2685586E

Note: For machines in the field that already contain the old board, it is not necessary to install the new board or software.
