Notes for Users

## Attaching the Control Panel Seal

✎ **Note**

❐ The following procedures and illustrations may differ slightly depending on machine model.

A **Peel off the transparent protective film stuck to the control panel seal.**

✎ **Note**

❐ On some models, the control panel seal is covered by a transparent protective film.

❐ Do not peel the control panel seal away from the machine body.

B **Peel the back off the control panel seal.**

C **Match the holes of the control panel seal to the display and buttons of the control panel, and then stick the seal on the control panel using your fingers.**

D **Peel off the transparent protective film stuck to the control panel seal.**

✎ **Note**

❐ On some models, the control panel seal is covered by a transparent protective film.

❐ Do not peel the control panel seal away from the machine body.
