

For Users of This Product

The following is an additional explanation about this product's power consumption.

☐ **Standby power consumption**

The power level when the main switch is turned off and the power cord is plugged into an outlet: 1W or less

☐ **Factory-set values for the ECO Night Sensor settings**

ECO Night Sensor can detect darkness and automatically turn off this product's power. If ECO Night Sensor is enabled and detects darkness in a room after the lights are turned off, the sensor automatically turns the power off and reduces the power consumption of this product to 1W or less.

However, if ECO Night Sensor is enabled, the network functions stop working and the default settings of ECO Night Sensor are disabled.

If you want to use the sensor by enabling its settings, see "Turning the Printer's Power On and Off" - "Setting the ECO Night Sensor" in Hardware Guide, which is supplied with the CD-ROM.

Corrections in Safety Information

The following note, "Notes on lamp(s) inside this machine" in "Safety Information", is supplied with this product. However, please ignore it since no mercury is used in this product.

Notes on lamp(s) inside this machine
